Dear Perth & Kinross Council

Application to Green Living Fund December 2023

Aberfeldy Development Trust is delighted to support Pitlochry Community Action Trust with this application to the Green Living Fund. ADT is committed to the economic, social, cultural and environmental prosperity of Aberfeldy and we welcome this initiative to help engage both communities with working towards greater environmental sustainability. In our Housing Needs Survey (July 2022), a high proportion of respondents (70%) stated that they would benefit from energy efficiency measures. It would therefore be beneficial to highlight in the community help available through organisations to reduce energy costs and provide information on the range of measures and assistance available.

ADT will help promote the fairs through our website, social media and members newsletter (currently approx 200 people).

Your sincerely,

Helen Stockham
(Development Officer, Aberfeldy Development Trust)
